Program Features

DENNIS
KITCHEN CARE

- SAFETY** There is nothing more important than your **SAFETY**. We are continually working to make certain our systems are as “user-friendly” as possible.
- TRAINING** In-Service **TRAINING** sessions help insure that your people, veterans and new, are kept up-to-date with the latest techniques of good Kitchen Care.
- SERVICE** Equipment checks, inventory control, trouble-shooting, installation are all part of our “Total-**SERVICE**” package.
- PRODUCT** Safe, “bio-friendly” and cost effective are three concepts we strive to build into each **PRODUCT** and system we supply you.
- DISPENSERS** We make available state-of-the-art electronic **DISPENSERS** to help insure the safe, accurate handling of our products.

Partners in Sanitation

We want to be your partners in successfully fulfilling a very important responsibility. That responsibility is helping to insure people's health through professionally managed **KITCHEN CARE PROGRAMS**.

We recognize the challenge of your job and we want to provide you with the kind of sanitation program that will, not only make your task more pleasant, but will insure high cleaning standards as well.

Together, we can build a partnership that surpasses industry standards in cleanliness and sanitation.

If your current supplier is not providing you with the solutions you require, our team of experts can identify your needs and develop a cleaning program that meets your challenges.

Let Dennis optimize your cleaning resources. One call is all you have to make to have all the ingredients for a successful and cost-effective sanitation/cleaning program.
