

Beef, Veal- The CME February cattle contract, which is now the nearest on the board, was higher by 2% w/w to \$198.35/cwt. The choice cutout climbed 2% to \$330.78/cwt, while the select cutout saw a 4% increase, reaching \$308.35/cwt. Breaking out the choice cutout, the bone-in export rib was down 14% to \$10.43/lb, and the boneless ribeye was lower by 12% to \$11.26/lb. Out-front sales for bone-in export ribs have been observed in the \$9.50/lb range. The end cuts (chucks and rounds) were higher again last week. In the chuck segment, chuck rolls were up 7% to \$5.00/lb, and shoulder clods were higher by 7% to \$4.02/lb last week. In the round complex, inside rounds were up 4% to \$4.00/lb, and bottom round flats were higher by 9% to \$3.97/lb. The retail/grocery sector is heavily advertising the end cuts to drive foot traffic into their stores. Ground beef 81% was up 9% to \$3.22/lb. In the trim segment, the price of 50% trim was sharply higher by 12% to \$1.04/lb and 90% lean trim was up 4% to \$3.42/lb. Looking ahead, the rib complex is expected to continue its decline, but strong retail demand for end cuts and ground beef has driven the cutout higher. Processors are building positions in the loin meats as they position for the spring grilling season, which will lead those subprimals higher. The Average, USDA, FOB per pound.
